Profile

Technical Project Manager with over 10 years of experience leading software development projects in agile environments. Expert in managing multidisciplinary teams, implementing complex technical solutions, and successfully delivering projects within budget and timeline.

Employment History

Technical Project Manager, CaixaBank Tech, Barcelona, Spain

OCTOBER 2023 – PRESENT

Creation and leadership of the Facilitea Casa project from the ground up, a real estate portal which promotes mortgages with CaixaBank and helps the positioning of real estate agencies in the market. Additionally, assisting and working on various projects for Facilitea, CaixaBank's marketplace, designing new functionalities and leading the different teams, helping to manage the projects and focus them to expand business areas, reaching more clients and offering more services integrated with banking environments.

Project Manager, Rebelio.tech, Barcelona, Spain

MARCH 2019 – AUGUST 2023

Leading the Correos Market project since its creation in 2019, working with the client by prioritizing sprints and milestones to build the foundation of a software that now supports 1400+ sellers and 120,000+ orders, managing more than 20 people including designers, back-end developers, and client employees.

Front-end Developer, Rebelio.tech, Barcelona, Spain

MARCH 2016 – AUGUST 2023

I developed all the current screens for Correos Market, Soluciones Ecommerce Tienda (SaaS online stores) and Web (Online website builder with JavaScript), creating interactive websites compatible with all browsers, using HTML, CSS, JavaScript, Handlebars, and JSP.

IT Managment, Rebelio.tech, Barcelona, Spain

MARCH 2016 – AUGUST 2023

Administration of VDS and VPS, email services, and Azure environment. Hardware maintenance of all office employee computers and development of IOT projects, designing both hardware and software.

Front-end Developer internship, Rebelio.tech, Barcelona, Spain

MARCH 2015 – MARCH 2016

During the Internship, I developed complete templates with customized functionalities for the Tienda software and helped to correct front-end design issues.

Education

Higher Technician in Multi-platform Applications , INS La Ferreria, Montcada i Reixac, Spain

SEPTEMBER 2014 – MAY 2016

During the degree, we worked on Android applications and desktop applications made in Java, .NET, C#, Erlang, and Python, along with database architecture and development.

Technician in Microcomputer Systems and Networks, INS La Ferreria, Montcada i Reixac

SEPTEMBER 2011 – MAY 2013

In the degree, we assembled and studied in depth all the components of computers, deployed large networks in buildings and offices, and administered servers and clients on a large scale in Windows and Linux environments.
